WESTERN HIGH SCHOOL

RUSSIAVILLE, INDIANA

Constructing for

Tomorrow

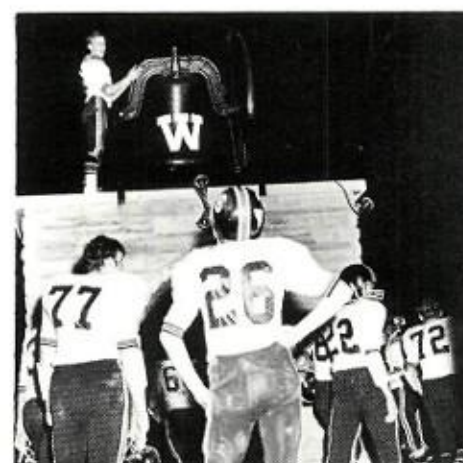

Why would Western be building a new school? Because it is the fastest growing school around! It is supervised by three outstanding administrators: Richard Rea, Don Hanna, and Dale Baltus.

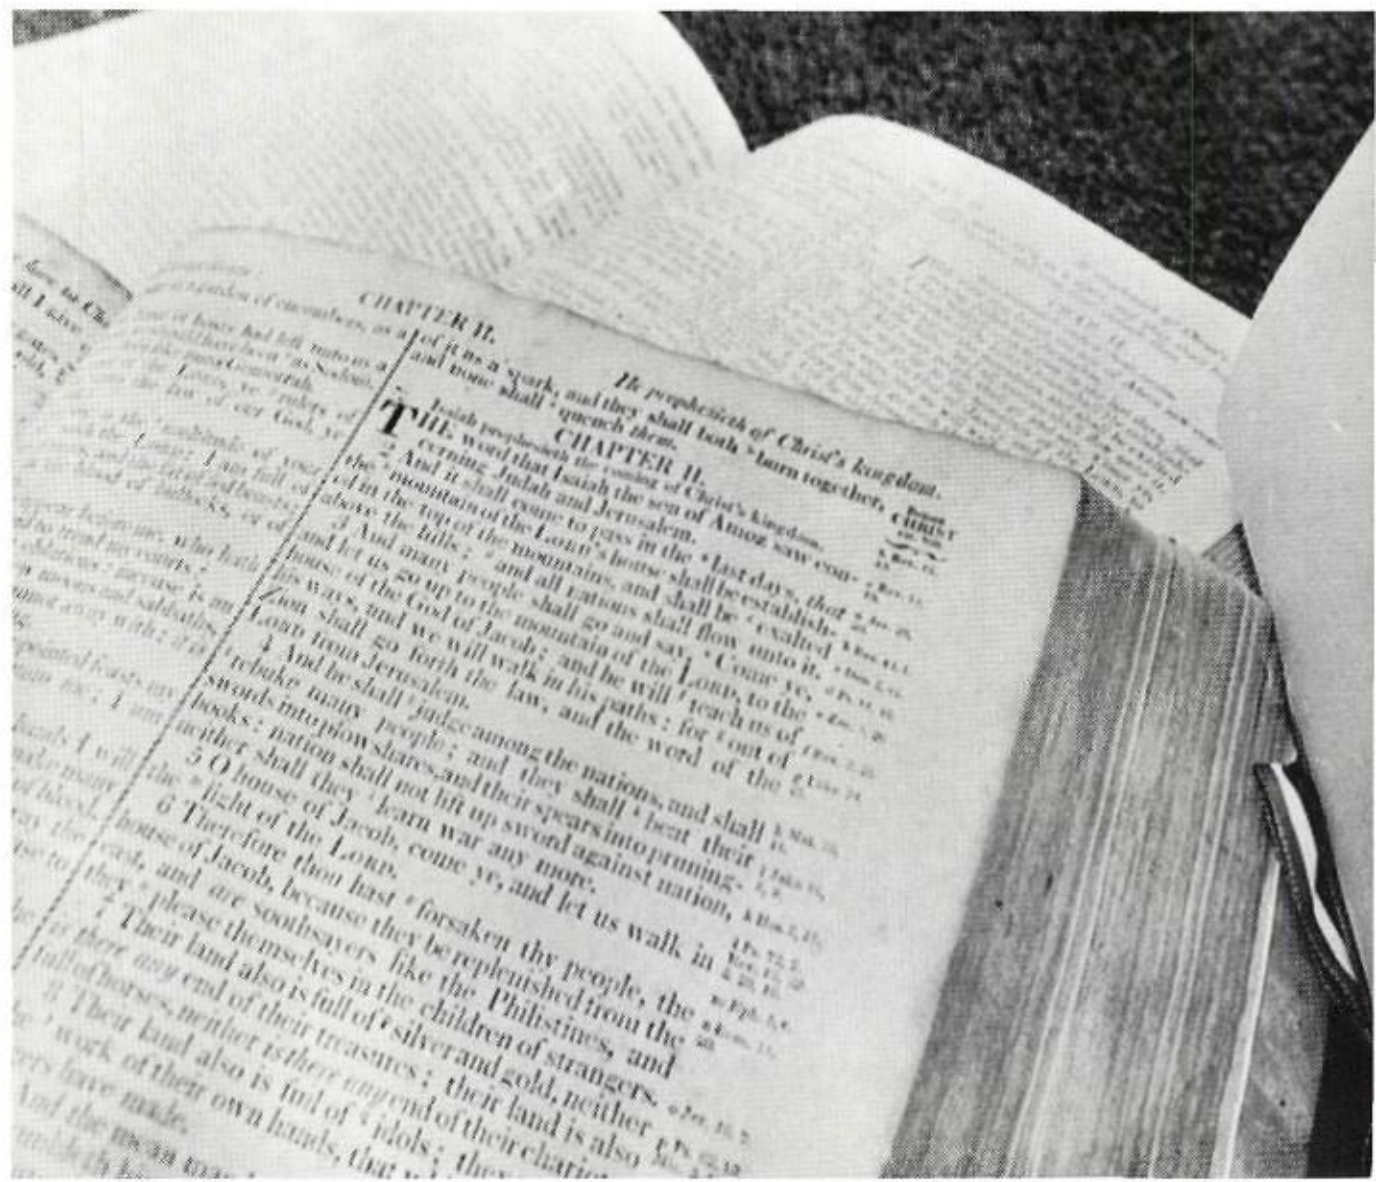

The school board has also taken an active part in the administering. They have been discussing and making plans for our new school. The final touch has been added to the blueprints and we are now in the process of building.

The old structure has taken a lot of wear and tear, and has served as an institution of learning for students throughout many years.

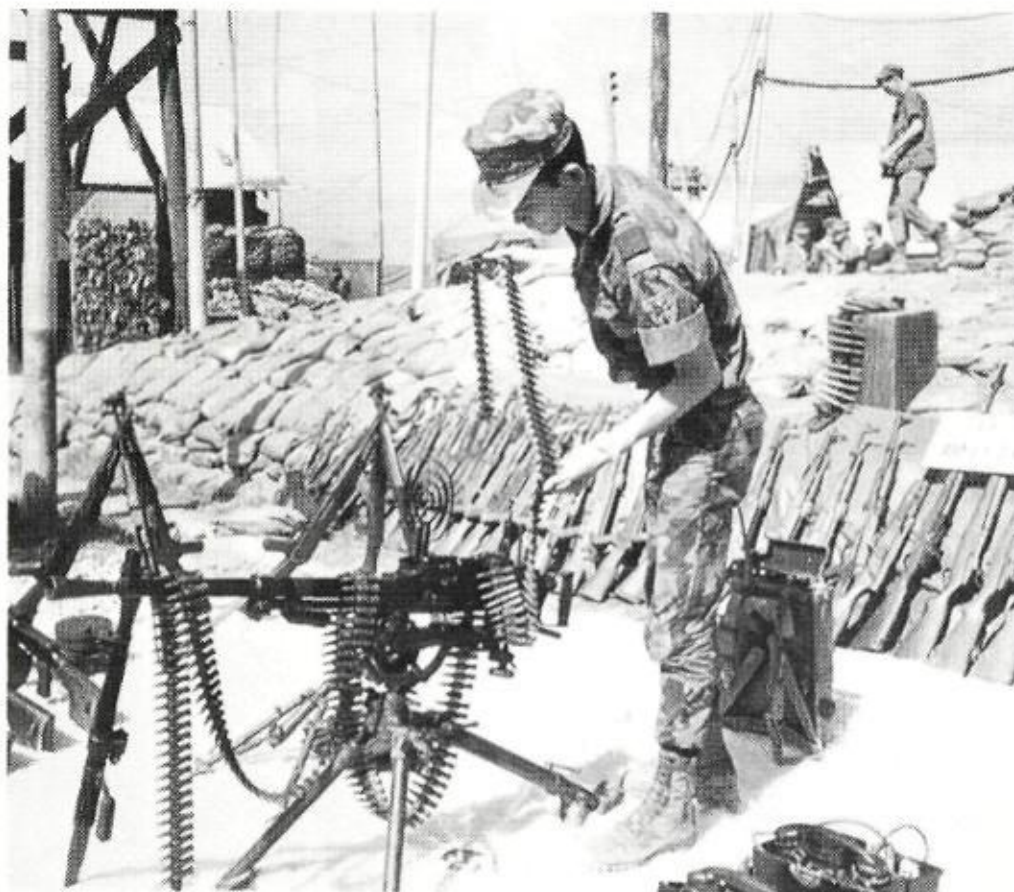

The new building will provide much needed facilities for the increasing enrollment.

Nixon Becomes 37th President;

President Richard M. Nixon took his oath of office on January 21, 1969, and the nation saw the most lavish Inaugural Parade and Ball in its history. Nixon then began building his administration to cope with many problems, especially Viet Nam where the casualty toll mounts and neither side has a clear cut victory. The Paris talks have laid a foundation for a possible future peace.

Ricardo, First Building Block in International Student Exchange Program

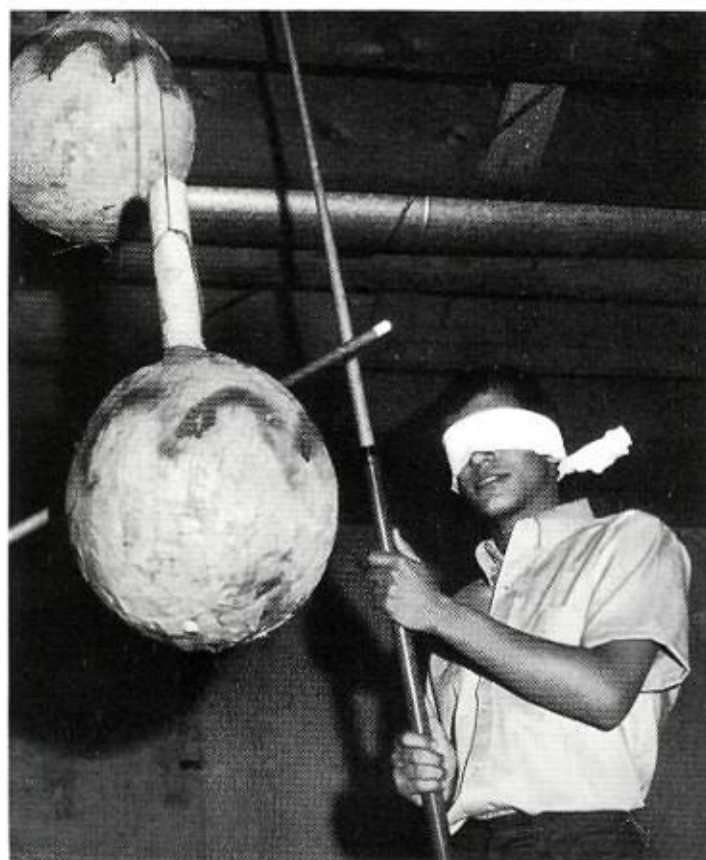

Enjoying his stay in the U.S. Ricardo relaxes with his new family.

Mr. Hanna explains to Ricardo that our yearbook represents events that happened throughout the year.

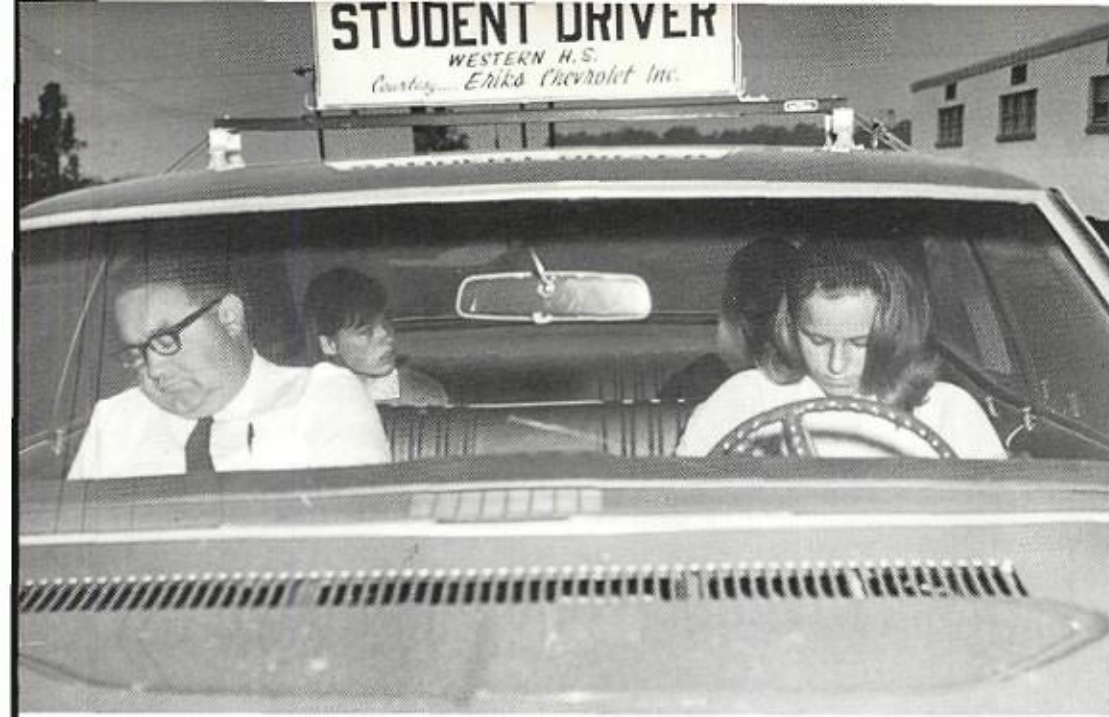

This year Western was privileged to have Ricardo Monte-Serrat from Brazil. Ricardo made his home with the Whitehouses while staying here. Home in São Paulo, Ricardo attends Colegio La Salle School where he is presently a sophomore. Ricardo plans to enter the Brazilian Diplomatic Corps upon completion of his education.

Playing a game from his home land, Ricardo tries to break the piñata.

Second Hand Rose, alias Ruth Fleenor.

This year's Fall Festival was a roaring success with John Pierce and Dennis Unroe as MC's for the night. The choir sang several selections from "Oliver" and "Carousel". Entertaining us with her solo of "Second Hand Rose" Ruth Fleenor drew laughter from the crowd. Denise Downey performed a beautiful ballet by Tschaikowsky and the Vocalaires displayed their talents. The audience went into hysterics when Alice Tharpe performed "Tiptoe Through the Tulips" as Tiny Tim.

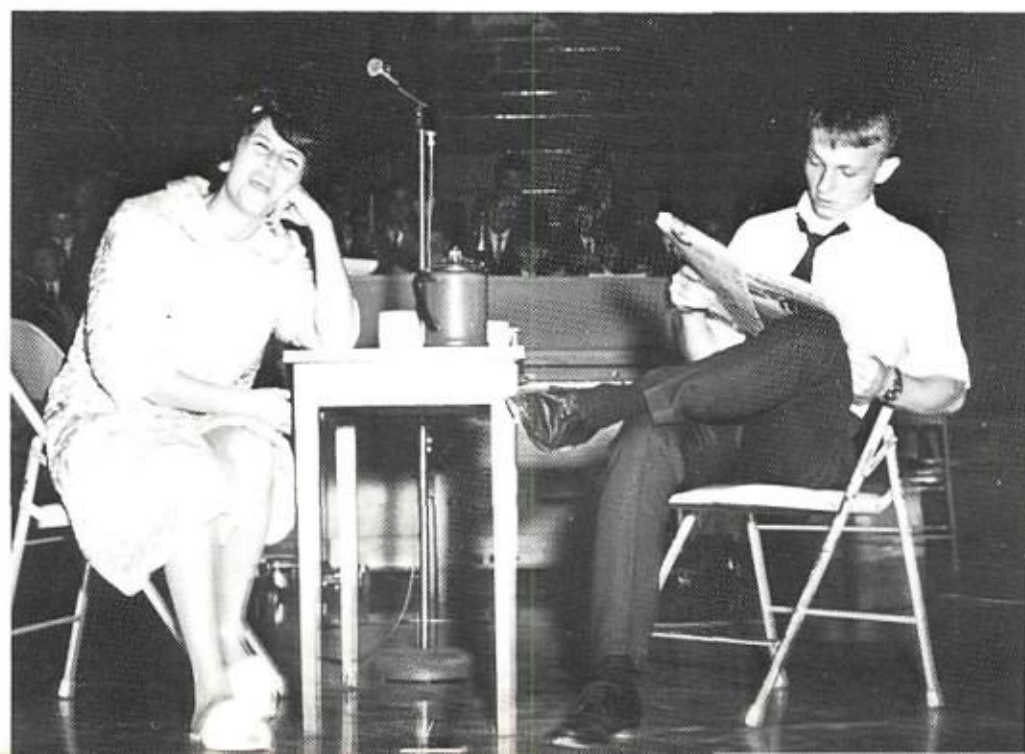

Newly organized folk group performs for the first time.

Frogs, beetles, snakes, granite, titration, sonic waves, birds and bees are some of the subjects considered in the science program at Western High School. These are some of the "traditional" subjects in the curriculum. However, a rather "untraditional" member has been added to the science department this year. No, not one of the teachers; it is the famous snake found in the eighth grade science class. The snake, named Charlotte, Jennifer, Sampson, or something like that, is a Boa constrictor.

Advanced chemistry has been added to the science courses offered. This class helps to prepare the students for college science. Experimentation and analysis are two of the objectives in advanced chemistry. These and other phases create a well balanced science program with the "traditional" and the "untraditional".

The Math department is a major part of the curriculum here at Western. Adequate classroom facilities provide students with an atmosphere of learning and concentration which is necessary for the comprehension of most mathematical courses.

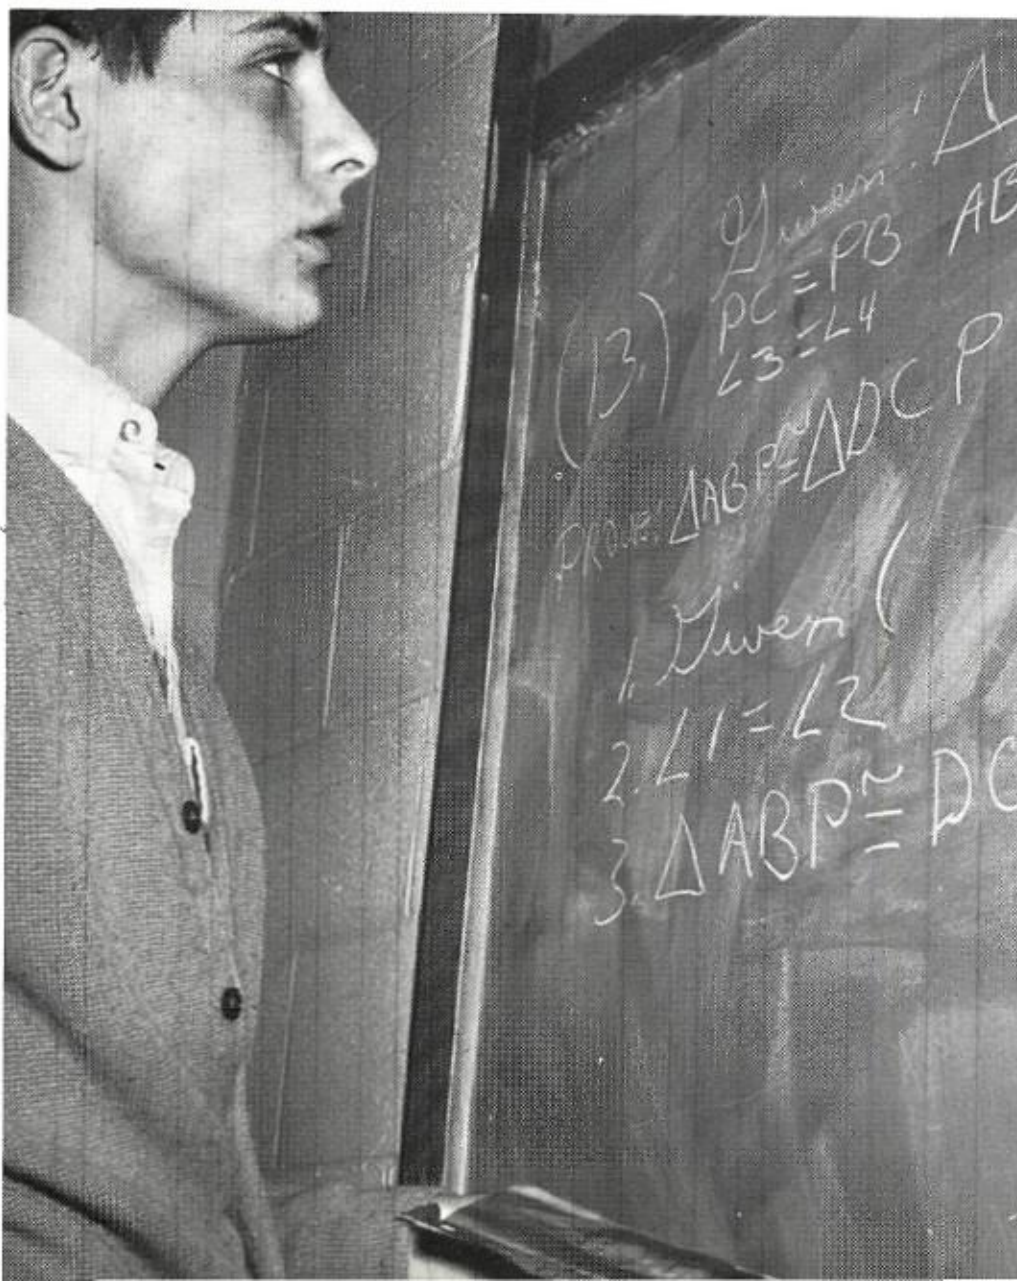

Many classes are offered in mathematics ranging from basic General Math to Analytic Geometry, a much more challenging course for the more advanced student. Mathematics is also very important on the Jr. High level where the students are taught the concepts of modern math and the fundamental principles of general math.

Mathematics is often confusing, but very beneficial to the student who studies hard and strives for constant improvement.

But I thought Marseille was in southern France.

The foreign language department is advancing tremendously this year.

The Spanish classes, for the first time are sponsoring an exchange student, Ricardo Monte Serrat, from Brazil. This is the first year for a Spanish II class, whose biggest accomplishment is reading the book, *Don Quijote de la Mancha*. Four French students will be visiting western Europe this summer for further education in French. The French II class is proud to announce they finished the book, *Le Tour du Monde en 80 Jours*. Julius Caesar and Roman life are the main subjects the students are choosing for the Latin I book reports.

BUSINESS

Business is a popular and very important part of the curriculum at Western High. This year new calculating machines were added to our equipment and were welcomed by many bookkeeping students. These machines are more modern and make adding those columns a breeze. Along with the calculating machines, new tables were placed in the bookkeeping room. These tables provide students with lots of elbow room and plenty of working space.

Equipment isn't the only thing new in the business department. A new course, Business Law and Salesmanship, is being offered.

By offering a wide range of business courses, we hope to prepare the business students for their role as future tycoons of America.

Western's Home Ec Department helps to build better home makers. The girls in seventh grade are taught proper cooking and sewing techniques, the keys to proper dressing, home nursing, and child development. A new class has also been added for those not already enrolled in Home Ec. It is the home management course. Also new is the summer foods course in connection with business in Kokomo. The girls have a short course in foods and then proceed to work with foods in local hospitals and restaurants.

Industrial Arts; Everything from Saws to Guitars

We came; we sawed; we made.

Complete concentration??

This year's Industrial Arts program was introduced by a new instructor, Mr. Tom Lewellyn. While the juniors and seniors work with wood and metal, the freshmen concentrate their talents on plastic and wood. The 7th and 8th work not only with plastic and woods but also with leather carving. After the boys turn in the required projects, they are encouraged to do original projects. An electric guitar made by Ronald Hansworth was one of the biggest accomplishments of the year. This course, because of its opportunities for the students to express themselves, is one which understandably lures so many of our Western males.

This is a truly boring job.

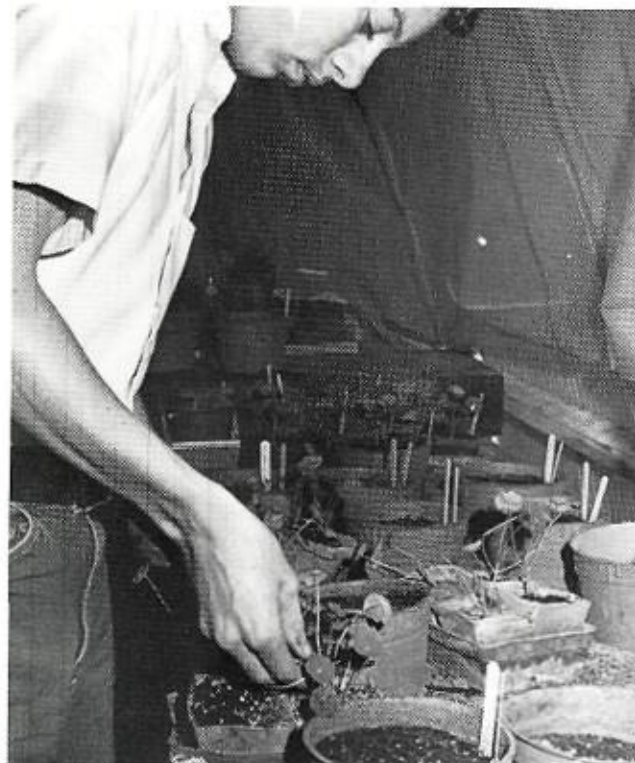

The Agriculture Department is expanding its curriculum this year. With the aid of the new greenhouse students were able to grow flowers and plants in mid-winter.

Instruction deals with farm machinery, plant growth, pest control, livestock production, soil mixtures, and fertilizer applications.

Learning farm management students are given a chance to grow and sell their own plants that they have grown in the greenhouse.

Judo and "Gurus" Are Novelties of the P.E. Class.

The aim of the physical education classes has changed. In the past, the student has tried to achieve skill and ability in a variety of sports. Of course, sportsmanship went with this. This year these aims still hold, but something has been added. The sports being taught are those which the student will enjoy throughout his entire life. In advanced physical education, there is even more importance placed on these lifetime sports. Naturally the students are still taught football, basketball, softball and volleyball, but in addition to this they are taught other sports such as bowling, swimming, golf and tennis. New also to the advanced class is co-ed physical education (heh, heh). This is the first year Western has had this type of program, and it seems to be favorable, particularly to the students.

Historical Society Promotes Patriotism

Have you noticed the way the Historical Society is trying to promote patriotism? They purchased flags for the classrooms and they lead the classes in saying the Pledge of Allegiance at the beginning of each week.

This year the Historical Society is taking a tour of the Capitol Building in Indianapolis. They are also visiting historical sites and museums at St. Louis, Missouri.

FHA'ers honored their fathers by sponsoring Daddy-Date Night. The crowning of the "greatest" father highlighted the evening.

Many worthwhile projects involved the time and efforts of the FHA'ers, and not only benefited the school, but the whole community.

FHA girls joined other FHA chapters around the nation in celebrating FHA week, in honor of all Future Homemakers. Everyday of this week, the girls did something special for that day. On the last day the girls got corsages of red roses.

To acquaint and interest girls in the different fields of medicine is the major goal of the Future Nurses Club. Girls in F.N.C. are encouraged and assisted in selecting the proper course of study to follow in furthering their education in the medical profession.

Speakers from a variety of medical associations, such as the I.U. School of Nursing, further aid the Future Nurses in their quest of the medical profession.

Files are kept pertaining to the various medical professions and are useful to the members in providing information and ideas about which field of medicine to pursue.

F.F.A. Provides Experience and Honors

F.F.A.

Since Agriculture is a specialized course, only those students who have an earnest desire to increase their knowledge of farming can become members of F.F.A.

Various agricultural contests present a challenge to F.F.A.'ers. This year several members of F.F.A. took top honors in area competition.

Western is proud of this club and its many achievements.

Latin Club Modernizes Latin Banquet

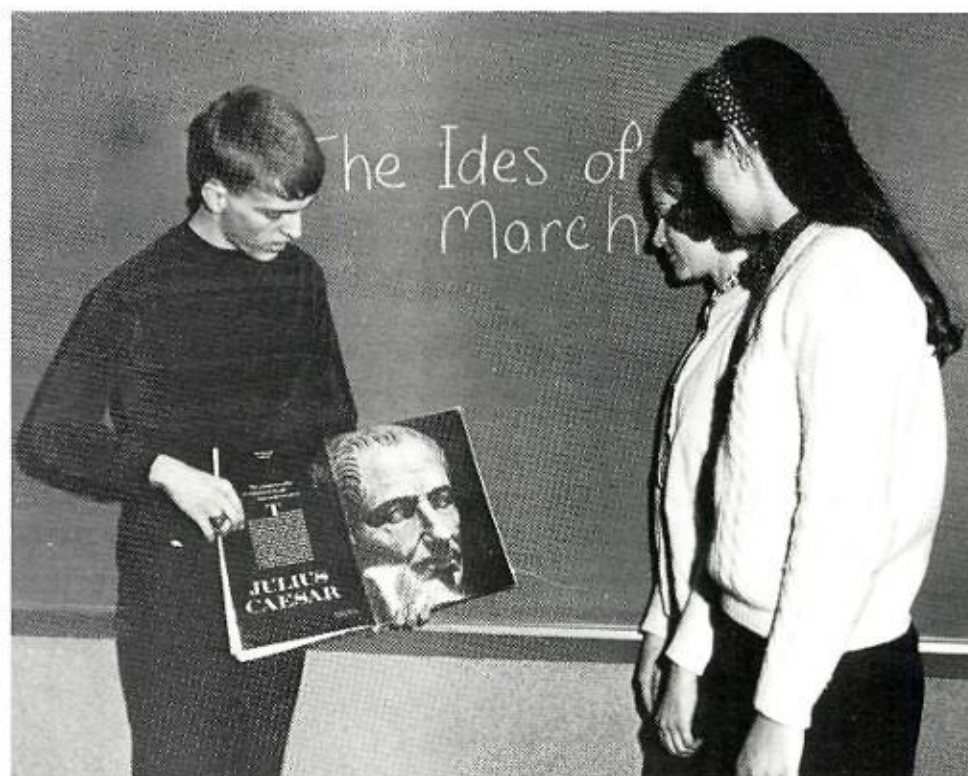

The Latin Club is studying Virgil and other Roman poets this year. The club emphasizes Romans which are not taught in class.

Each year the club has a banquet during National Latin Week. This year the banquet is in the modern instead of the traditional Roman style.

Worms and Apples in Science Initiation

Initiation was a source of apprehension to new Science Club members this year. They were blindfolded and taken to a table where their hands were placed in contact with unknown objects. In itself, this wasn't too bad but comments made by other members sparked their imaginations. This was an experience the new members won't soon forget.

A trip to Milwaukee in March and the annual Science Fair in March are just two of the many projects that kept science club members busy this year.

What you have to go through to get an apple!

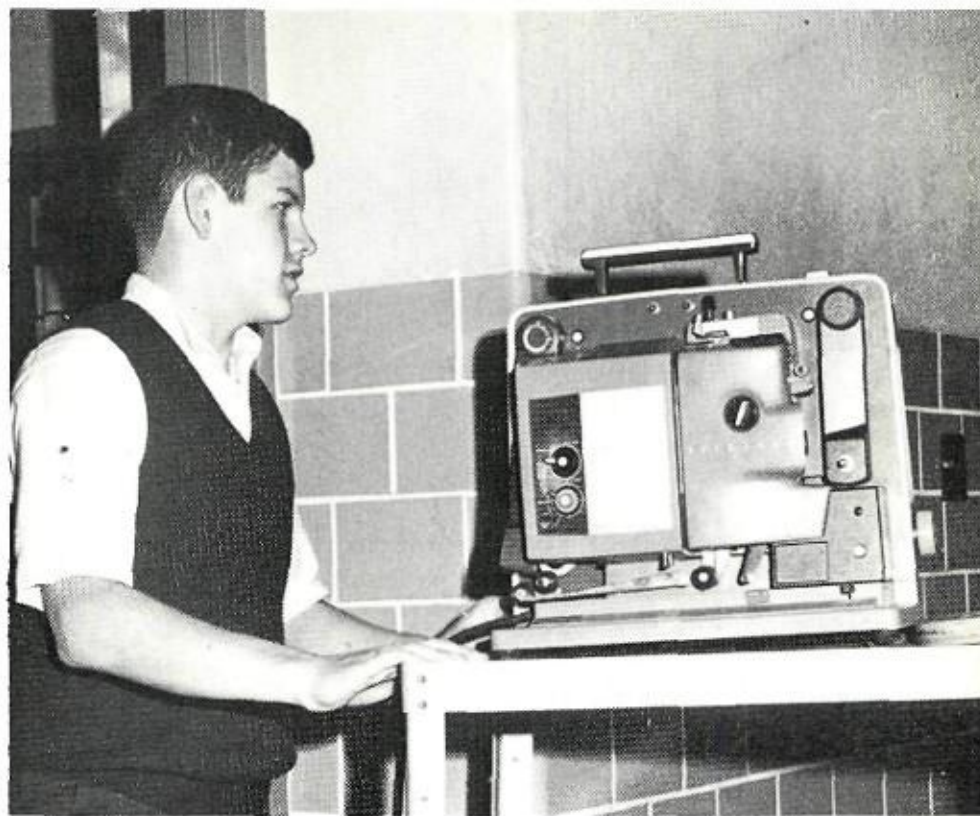

It's what??!

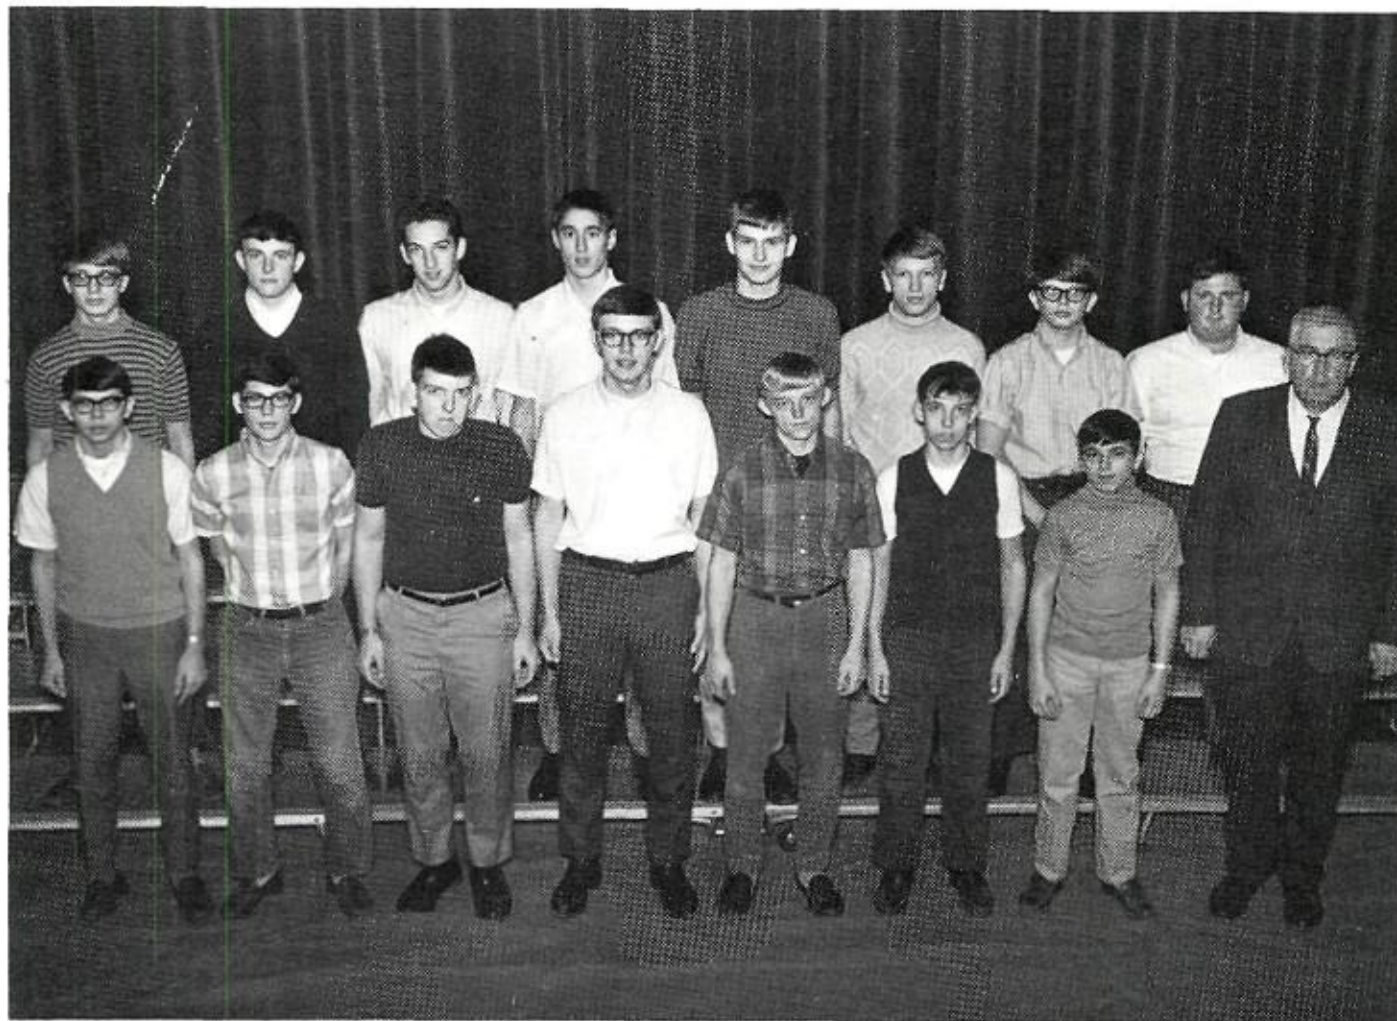

One of the most active clubs at Western is probably the audio-visual club. The boys are kept busy by the teachers, particularly since teachers are using audio-visual equipment more and more.

The boys not only learn how to run the equipment, but also how to repair it. Too, they are taught how to splice films and filmstrips. This is a very important job because Western is acquiring more media and it must be taken care of properly. The assistance provided by the A-V Club has proved to be a tremendous asset to classes at Western.

Which dumb teacher wants this thing next?

F.E.A. Trip of Value to Members

A discussion of the day's events takes place as members head for home.

F.E.A.

Engineering, an ever-expanding field, generates much interest among students here at Western. Members learn more about this field by way of trips taken throughout the year.

Their most important business trip to date is the one that the club took to Dayton, Ohio. At Dayton, they visited a Manufacturing plant and took a tour of the city air base.

At scheduled meetings they hear speeches from past F.E.A. members and working engineers.

From this club, the members hope to understand the field of engineering a little better.

Clasp of fellowship

F.C.A.

The club, Fellowship of Christian Athletes, provides a way in which Christian athletes may get together for a time of fellowship and worship.

The meetings consist of bull sessions and scripture study which also try to answer the spiritual needs of each boy.

This club, newly formed this year, also provides for a better understanding of the boys themselves, and of the world around them.

Bible Club Takes a Big Step Forward

Bible Club is getting better all the time. With an increased membership, more opportunities are opened to the club. There are more guest speakers who are very good and the meetings have an added interest. Besides speakers, singing groups also present programs. Yes, Bible Club really is moving forward and it is hoped that the progress will continue.

Singers are a source of inspiration to the club.

Hi-Y and Chess Newest Additions to List of Clubs

The newly formed Chess Club gives those persons interested in the game of chess an opportunity to find better competition and learn many new techniques and maneuvers.

Inter-school chess tournaments are held throughout the year and give members a chance to test their skills against stiffer competition. Patience and an interest in chess are requirements for admittance to the Chess Club.

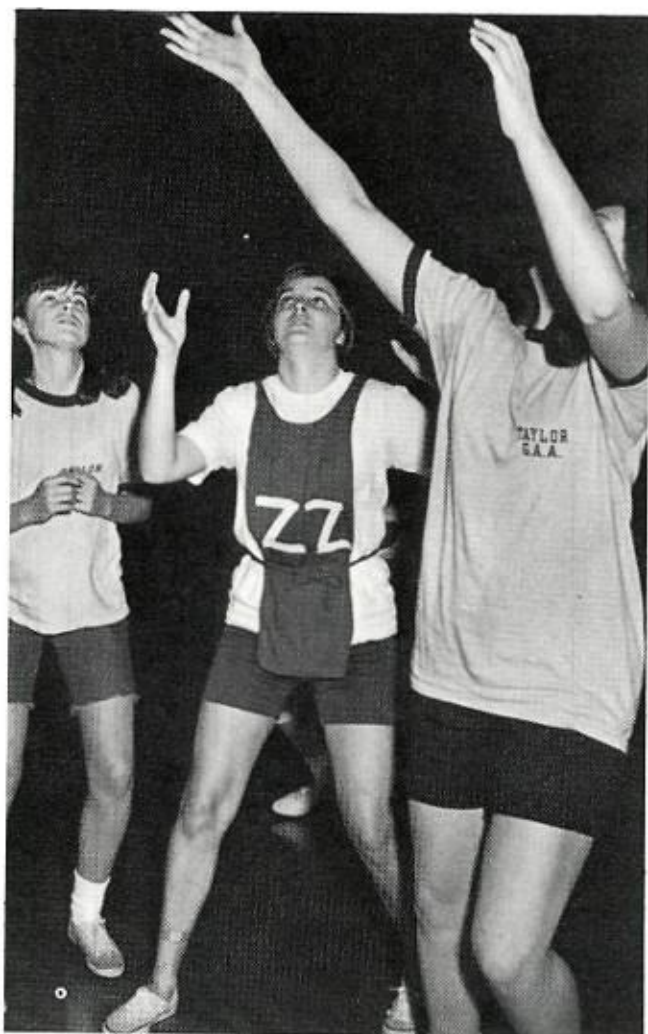

Hi-Y is a relatively new club at WHS, but certainly not an inactive one. Members sponsor dances throughout the year. This year's faculty basketball game was the result of the efforts of Hi-Y. Though a young club, it is one of the most active.

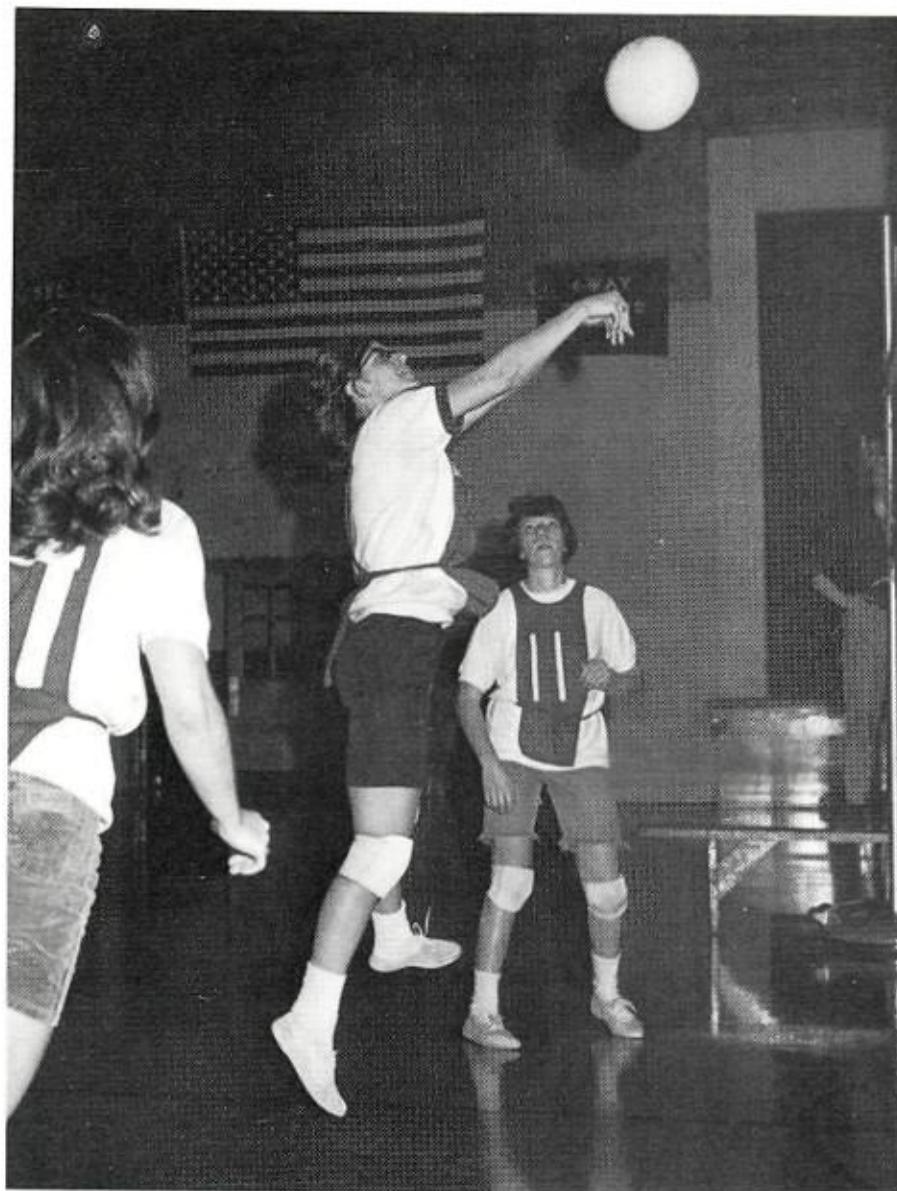

Patience is required in making important decisions.

What goes up . . .

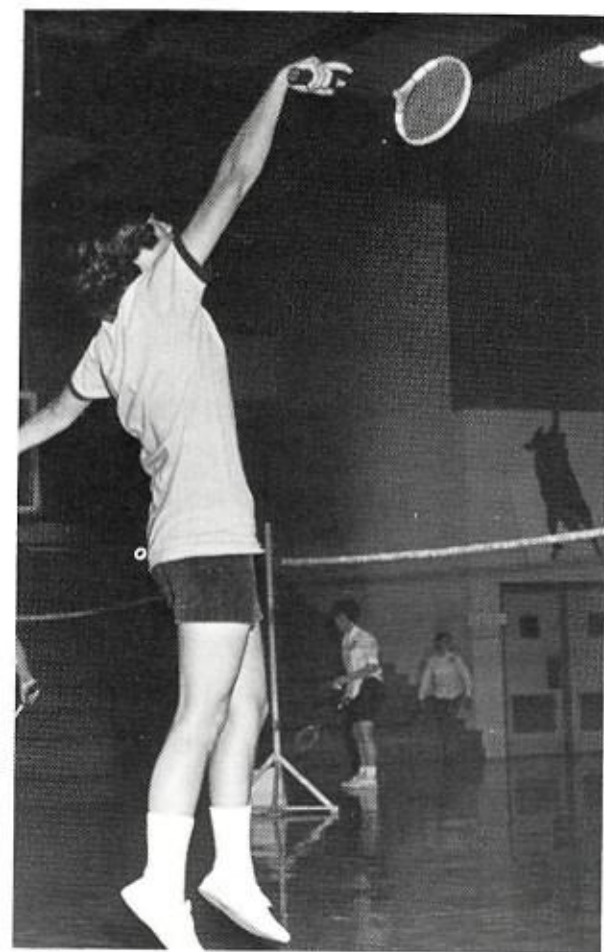

Umphhhh!

Participating in sports and making friends is what G.A.A. is all about. The girls engage in a wide range of athletic events throughout the year. This requires staying after school for long hours of practice, but it's well worth the effort.

This year, Western hosted the first State G.A.A. Volleyball Tournament. Of the fourteen schools represented, Western took third place honors.

"Three Coins in a Fountain" was the theme of the G.A.A. dance held in March. To acquire money for this dance, the girls sold candles in the fall. It was only because of their fantastic efforts that the dance was made possible.

Perfect form.

To encourage art as a vital form of communication and self-expression is the chief aim of the Art Club. Members are able to advance their artistic abilities and are provided with an opportunity to display their work at the annual "Art in Action" show in the spring.

This year the Art Club proudly announced that two of its members had winning entries in the Regional Scholastic Art Awards show.

Art Club also took honors at Homecoming by winning the traveling trophy for having the best walking float entered in competition.

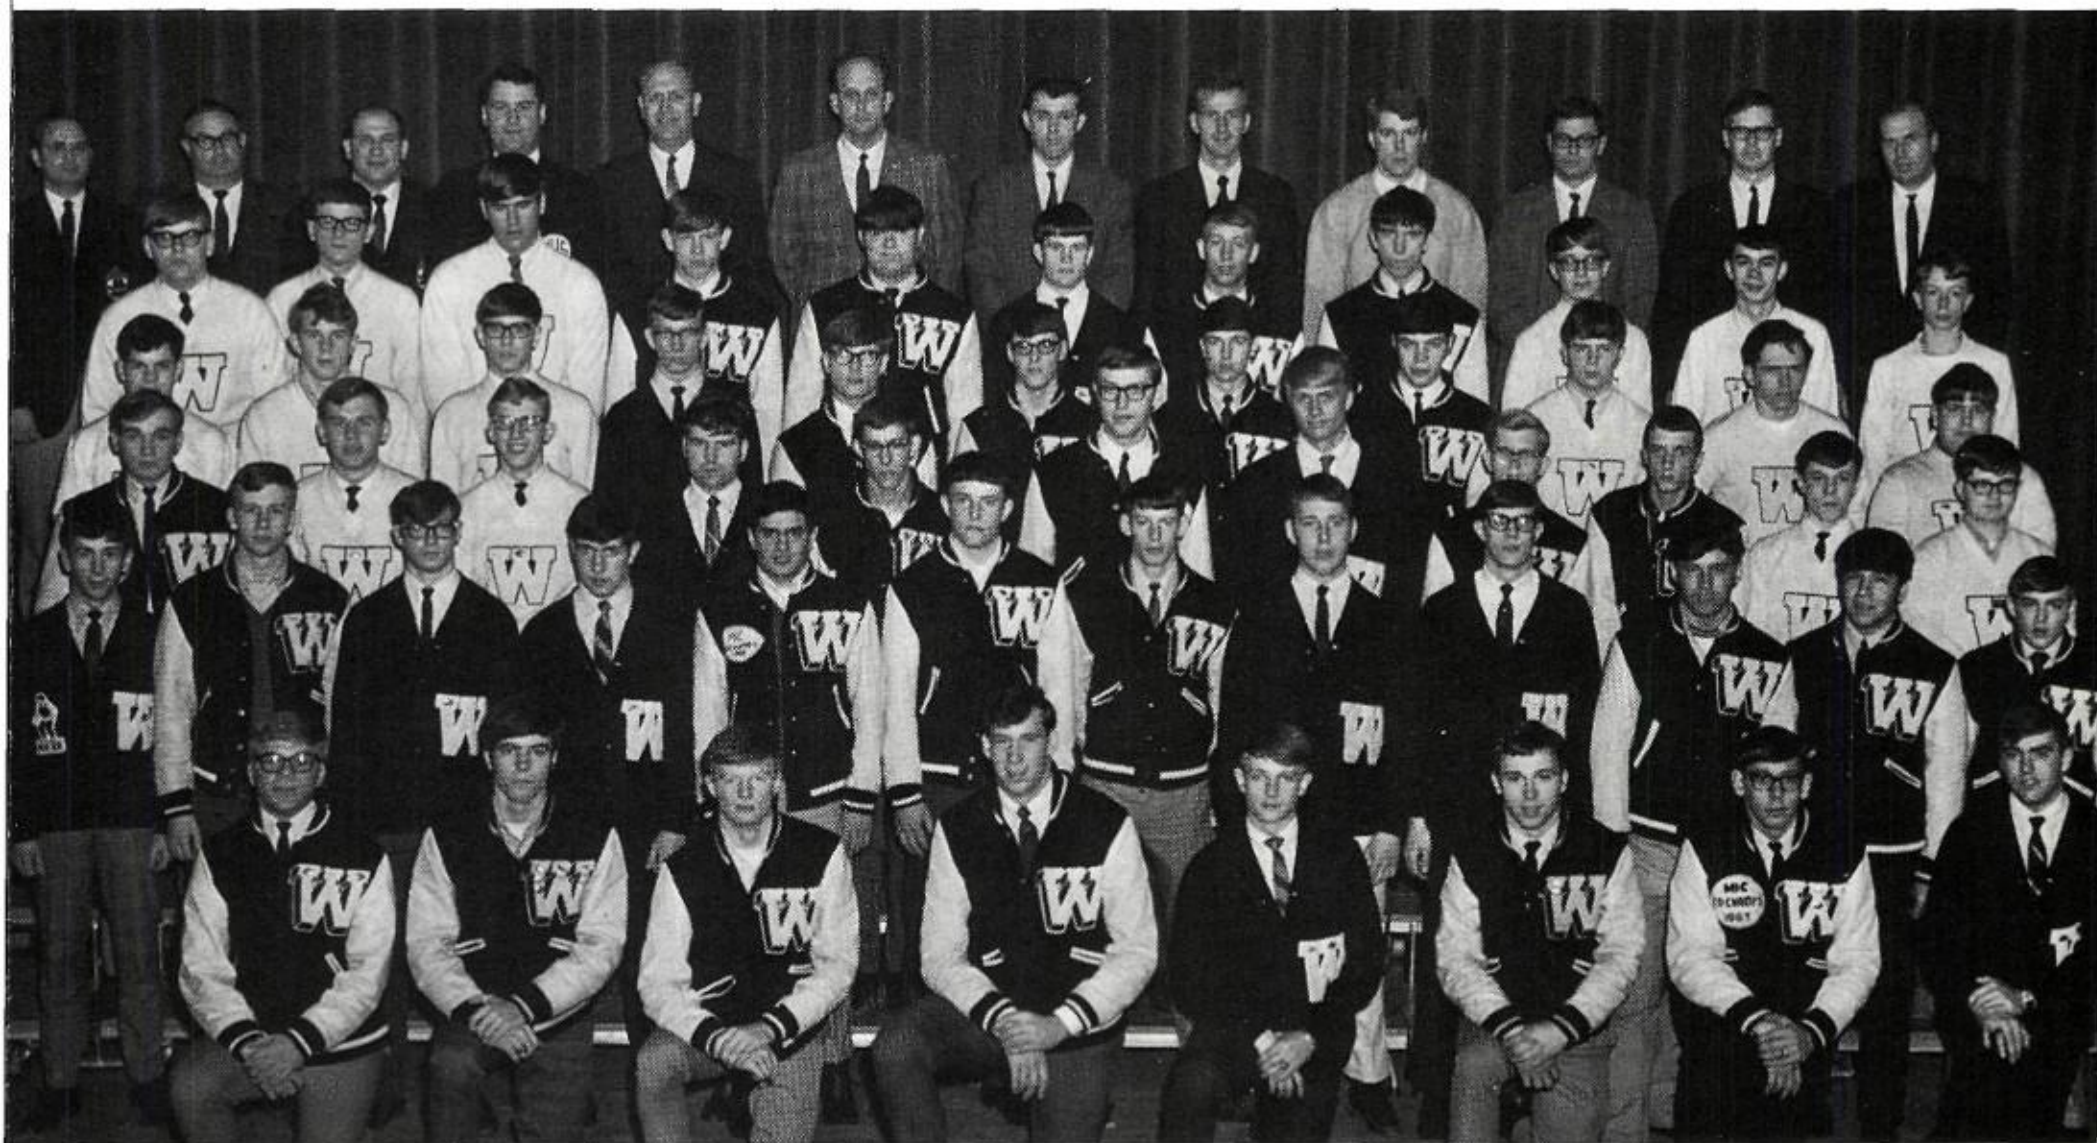

Western Dust Remover

Western is especially proud of its major athletic award winners who comprise the W-Club. Boys with at least one major award in a varsity sport are eligible for membership.

Members provide assistance at school activities, but mainly serve to boost school spirit.

A trip to the A.B.A. play-offs in the spring is the highlight of this year.

Booster Club Climbed

Victory, victory, we want a victory!

Western has a Booster Club that yells its heart out. Second only to Kokomo in size, it exists not only for school spirit, but also to drive our athletes on to victory. The members' uniforms are white turtle neck tops and dark skirts. Any rules are usually complained about. Booster Club is no different. Anyone wishing to join is told the how and whys of the rules. This is what makes Western's 1968-1969 Booster Club the best in the county.

Just one free throw and we've won the game.

New Building in Planning Stage

Richard R. Rea
A.B., Franklin College
M.S., Indiana University
Superintendent

Have you ever wondered just who runs the school? Did you ever stop to think about who hires the teachers or makes out the school's policies? These jobs and others are done by the School Board and Mr. Richard R. Rea, the School Superintendent.

At a typical Board meeting these men cover much business. There are reports on the lunch program, the maintenance of the building and grounds, and the elementary and high school programs. At the present they are discussing the money situation and the building problems of the new high school.

Do you think you could run our school as well as these men have?

Looking over a booklet of school buses Mr. Rea, Mr. Means and Mr. Singer make plans for new school buses.

SEATED: J. Anstett, D. Singer, Jr.; C. Hollingsworth. STANDING: H. Carter, J. Spangler, Dr. W. J. Means, Dr. G. Bollinger.

Principals Expand Curriculum and Activities

Donald E. Hanna
B.S., Indiana University
M.S., Indiana University
High School Principal

STUDENTS: Who are these men? They are Mr. Don Hanna, principal of Western High School and Mr. Dale Baltus, assistant principal.

When you make out your schedules, do you think of who is responsible for providing a good academic program for you to choose from? This is part of Mr. Hanna's job. He supervises the choice of subjects offered so that some will appeal to our interests and also be beneficial to us after graduation.

Mr. Baltus supervises the athletics and activities of Western. He schedules different events so that they will not conflict with one another. Would you want to do these jobs?

What do you suppose these two are up to?

Dale F. Baltus, B.S., Wisconsin University,
M.S., Indiana University, Assistant Principal,
Athletic Director, Football Coach, Student
Council Adviser, Senior Class Sponsor, In-
tramural Basketball Sponsor.

Guidance Helps to Build Character

Meredith Gene Pearson
B.S., Ball State University
M.S., Butler University
Director of Guidance, FTA Adviser

The Guidance Program this year was well handled by three very capable counselors. Mr. Gene Pearson, Guidance Director, supervised the entire program. He also administered such tests as the National Merit Qualifying Test, SAT, and the PSAT to students wishing to further their education after High School.

Mrs. Mary Springer, Dean of Girls, has the responsibility of all the girls and the seventh graders. Her knowledge and understanding of students' problems has eased many minds.

Mr. Norman Lewellyn has done an excellent job in his first year as Dean of Boys. The guidance and discipline of all boys is just one of his many duties.

Mary E. Springer
A.B., Manchester College
Dean of Girls

Norman H. Lewellyn
B.S., Ball State University
Dean of Boys
Assistant football coach

"Isn't that funny Dave? . . . Dave? . . . Dave?"

Seniors at least tried . . . !

The class of '69 had many decisions to make in order to be able to go on a class trip, have a class flower, motto, etc. The final decision was to have the red rose for the class flower. The red rose was also the flower that the girls carried and the boys wore a white carnation. The class colors were royal blue and white. They went to Detroit for their trip and as usual the kids got tired and the sponsors had a ball! The motto was "Making Tomorrows Memories Today".

Class Rings: Highlight of Sophomore Year

The sophomore class this year is really on the ball. They started their year out by building a winning float for the annual Homecoming celebration.

Another annual event of the sophomore class is the purchasing of class rings. This year they had their choice of style in many colors.

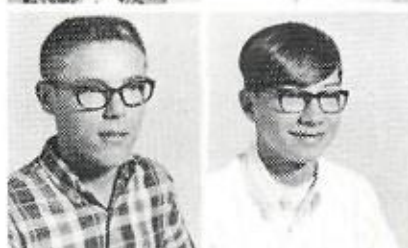

With their freshman year as their foundation, the sophomores are well on their way to building for a better future.

Classes around Christmas are so much fun!

The Freshmen are here to stay. When they came they spread like flies throughout Western's spacious halls, bringing with them a new vitality and strength.

The Freshmen idea of mod life appears on every square inch of the rooms they occupy, and they have impressed upon the teachers the need for greater discipline and communication.

No one knows better than the Freshmen the value of acceptance. They have been found in every crack and corner of the extra-curricular activities at Western High School. Their names are now permanently embedded in this high school's society.

Acknowledgements

This edition of the ECHO could not have been produced without the assistance of many persons not on the staff. Our special thanks go to the following:

Mr. Fred Plocher, American Yearbook Company, for his valuable assistance in organizing the book and his moral support when things looked bad;

Mr. Ted Hitz, Adams-Hitz Studio, who gave us excellent and prompt photographic work and made every effort to accomodate us in taking group pictures at our convenience;

Mr. Don Hanna, High School Principal, who worked with us in scheduling club pictures and gave us guidance as needed;

Mr. Dale Baltus, Activities Principal, for going out of his way many times to help the staff no matter what we asked;

Mr. Larry Smiley, last year's Yearbook Advisor, who graciously gave his time and effort teaching this staff everything they know;

Mrs. Louise Inman, Yearbook Advisor, for the outstanding job she did in making this yearbook what it is. She pushed and pulled at the staff until the work was finally done;

Mrs. Beth Perkins, for her helpful guidance on layouts; Jeannie Coy, who worked on the Organizations Section of the book and helped out in many capacities; Carol Tunis, who stepped in late and did so much needed typing for us; Kathy Milburn, for helping the editor in layouts, spelling and diction; Paula Reinhard, for help in writing copy;

And lastly, to the members of the faculty and administration for patiently cooperating with the staff on the days we took pictures and picture retakes.

We do sincerely thank these people and anyone else who gave us assistance in making this year's ECHO a most successful one.

Procedure of yearbook distribution is explained by Mrs. Inman.

Thursday night, 8:30 p.m., Room 204.

Your Staff at Work

Now was that 5 picas or 6 picas?

Penny checks last minute copy.

"I didn't think the line was ever going to end," exclaimed Jamie.

With the last layout finished and deadline met a sigh of relief is in store. Many people have worked long, hair-pulling hours to make this yearbook what it is. I think at times we wondered if it was all worth it, but now that it is finished we know that every minute spent was well worth the effort. Now we wait anxiously for the arrival of the 1969 Echo. This year we've added many new ideas. The book is now larger and contains 20 more pages than ever before. Also, a special blue section has been added for color and the cover carries the Western High School crest. High school will probably be the most happy and memorable four years of our lives; through the yearbook we are able to capture a few of these memories and keep them with us forever. I can't begin to thank everyone for their assistance in this production of the Echo. May I just say Thank-You!
